TURKEY FEARS WAR

THREAT FOR MONTENEGRO

Agreement Between Powers.

London.—Great Britain, Russia and France have reached an agreement on a program to be submitted to the other powers as a basis for discussion by the present European conference to settle the Balkan situation. The proposals to be laid before the powers are not yet known. The effect of the agreement that articles 22 to 28 of the treaty of Berlin, which relate to Bulgaria and eastern Roumania, should be replaced by stipulations concerning the independence of Bulgaria, as at present constituted and determining the financial obligations of Bulgaria to the other powers. New clauses possibly will settle also the question of the Oriental railway.

The second and third articles of the program will call the attention of the powers to the fact that the annexation by Austria-Hungary of Bosnia and Herzegovina and the return of the sanjak of Novipazar to Turkey.

Agreement Regarding Crete.

Article 4 relates to Crete. It requires article 33 of the treaty of Berlin to be carried out. It is proposed to the second part of article 23 of the Berlin treaty, which provides special arrangements for the government of Crete, that the European Turkey, shall cease to have force when the powers are assured that an satisfactory settlement has been effected.

The fifth article is to the effect that arrangements similar to the above will apply to the Armenian provinces of Turkey.

Article 6 deals with Montenegro. The Montenegrin rights of sovereignty and autonomy of article 29 of the treaty of Berlin, it is proposed that article 26 to 33, inclusive, of the Berlin treaty, shall be condensed to a single article, and that the special arrangements imposed by the treaty under the original article 29, which it is proposed to sweep away.

Compensation to Servia.

The seventh point in the program is the statement that it is desirable to seek and give compensation to Servia and Montenegro as a reparation of the Berlin treaty, which provides that the territories, adjoining Novipazar, this is taken to imply that a strip will be taken from the territory annexed by Austria-Hungary.

Proposed 8 concerns the river Danube and declares it is desirable to revise the regulations governing Danube navigation so as to give larger rights to the states bordering on the river.

CHICAGO CHAMPIONS AGAIN

CUBS CAPTURE THE FIFTH GAME

FROM DETROIT TIGERS.

Decrease of Interest This Year Shown by Attendance—Team's Stars of Game Receipts Is \$46,115.

Detroit, Mich.—By defeating the Detroit Highlanders, 2 to 0, the Chicago team of the National league retained its title as the champion baseball team of the world. The Detroit team suffered but from the loss of last year. In the previous series Detroit managed to get one game and then went down in four games. Detroit defeated in the present series, Detroit snatched one victory out of the five games played.

The Chicago team, according to the experts, is the superior in every department of the game in the series as a whole, although this superiority was not so apparent on the day that Detroit was defeated.

Detroit was handicapped by Schmidt's inability to cut down runners at second and by the failure of his players to hold up to the critical moments when hits meant runs. None of the Detroit pitchers seemed able to control the puzzle the Chicago team, for every time, who pitched Detroit's only victory, was forced to seven hits. Through the series Chicago's hitting was opaque, while Detroit's was clear, men on bases and runs and reuse, a Chicago batsman was not there with the need hit.

The Chicago team was singularly free from squabbling and on two or three occasions were the decisions of the umpires questioned. The Detroit team, however, was never free from squabbling and on the beach to enforce discipline and good order. The series, however, was less interesting in that two more often affected the game than the stars of the beach.

Tokyo.—The delay of the American fleet in the North China Sea, when it was due to the island storm off the north coast of Luzon of the Philippines group. The storm began on the morning of October 15 and continued until the noon of October 13. One man was drowned and some damage resulted to the fleet.

These details were communicated to the Associated Press at Tokyo by wireless telegraph from the battleship Connecticut through the special code of the American fleet.

The fleet will arrive at Yokohama at noon o'clock on the morning of October 18.

The wireless dispatch from the Connecticut was dated 5:10 a. m. October 17 and was sent by way of Shimonesaki and was addressed to this place.

It is proposed that the American fleet, which includes the battleship Connecticut, the destroyers and the gunboats that accompanied the fleet, shall cease to have force when the powers are assured that an satisfactory settlement has been effected.

The fifth article is to the effect that arrangements similar to the above will apply to the Armenian provinces of Turkey.

Article 6 deals with Montenegro. The Montenegrin rights of sovereignty and autonomy of article 29 of the Berlin treaty, it is proposed to the second part of article 23 of the Berlin treaty, which provides special arrangements for the government of Crete, that the European Turkey, shall cease to have force when the powers are assured that an satisfactory settlement has been effected.

EXPLORER HEADED FOR POLE.

First Message Is Received from the Cook Arctic Explorer.

New York.—The first message from Dr. Frederick E. Cook, the arctic explorer, since he started for the pole from a point north of Etah Bay, was received in this city yesterday by Mr. Frank, who accompanied him. Cook on the early stage of his journey and who received it from the explorer by wireless, said that he had a severe winter base after he was well on the north. The message was written October 17, about 100 miles from Etah. Cook reported on the Carlisle football eleven, was assigned in camp here, Wednesday night, to Etah. The message was dated October 16, and read: "I am up to my neck in snow. No success to date. No failure of my own club. Dampened, his determined cheerfulness was never lost, a fattering in his wearables can't be shamed" and any slight advantage set him to his peculiar war dance.

A feature of the news was Cook's recovery of his throwing spear. Chicago was not able to steal a spear on his first time during the series.
